Scope:

CAIP is a series of biennial international conferences devoted to all aspects of computer vision, image analysis and processing, pattern recognition and related fields. It has been held since 1985 and the last conference sites were Warsaw (2001), Groningen (2003), Paris (2005), and Vienna (2007). Additional information about the CAIP conference series can be found at: <http://caip.eu.org/>.

The proposed scope of CAIP'09 includes, but not limited to, the following areas:

- 3D Vision
- 3D TV
- Biometrics
- Color and texture
- Document analysis
- Graph-based Methods
- Image and video indexing and database retrieval
- Image and video processing
- Image-based modeling
- Kernel methods
- Medical imaging
- Mobile multimedia
- Model-based vision approaches
- Motion Analysis
- Non-photorealistic animation and rendering
- Object recognition
- Performance evaluation
- Segmentation and grouping
- Shape representation and analysis
- Structural pattern recognition
- Tracking
- Applications

Paper Submission:

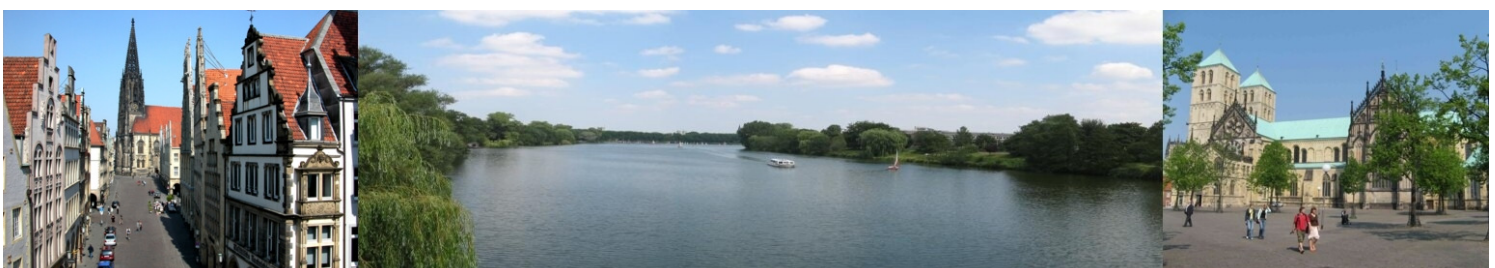

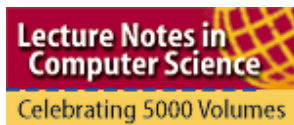

Papers must be formatted in the LNCS format. Paper submission instructions can be found at conference website.

Publication:

The conference proceedings will be published in the Springer LNCS series. A special issue with selected best papers will be published in Pattern Recognition Journal.

Important Dates:

Paper submission:	March 31, 2009
Author notification:	May 25, 2009
Final manuscript due:	June 10, 2009
